# CELEBRATING ALL 50 STATES!

**Allport now has unique designs for every US State!**

We're ecstatic to announce the completion of all 50 States in our popular and well-loved **12 Days of Christmas Series**. Working closely with Illustrator David Price, we've been striving to finalize this collection for many years - and we did it! See our designs for *your* state starting on page 22 of this catalog, and online.

We're also celebrating the growth of our line of high-quality, eco-friendly, 500- and 1000-piece puzzles! Launched in 2021, we've continued to nurture this collection by adding many of your favorite (and best-selling) designs. Our new, wider selection of beautiful jigsaws are made domestically AND sustainably!

With all products, we source hand-made works of art, in diverse media, from artists near and far. We're proud

to work with watercolor and acrylic painters, mixed-media collagists, and more! We strive to be environmentally friendly by using veggie-based inks on 100% recycled and sustainable papers and processing all chlorine-free.

We proudly support other American businesses by sourcing our base materials in the US: from paper, to envelopes, and more - it's all American made! We publish and package our cards (by hand!) in our home state of Oregon and we're proud to work with small, individually owned stores just like yours, in all 50 states!

Whether you've just discovered us or have been a customer since 1982, we **THANK YOU** for your support of unique art, independent artists, and American businesses like ours!

**Two Can Art** is a collaboration between Patti Gay and her son Noah, who is autistic. Noah creates painted textures that become the palette from which Patti creates beautiful, layered images. In addition to his fingers, Noah uses sponges, brushes, rollers, and even bubbles to create textures using acrylics, watercolor, gouache, and more! After the textures are created, Patti manipulates them into animal portraits using Photoshop: "I have always thought Noah's paintings were beautiful. It seemed only natural that we would combine our creativity."

**Father Arthur Poulin**, a monk of the Incarnation Monastery in Berkeley, CA, paints in acrylic on extremely large canvases.

His landscapes, which sometimes take years to complete, echo the Impressionists but project his unmistakably unique style. As art critic Sister Wendy Beckett has described it: "intense and strong, with a pure clear inner radiance." Each of Fr. Arthur's paintings begin with the application of up to 25 layers of black primer before adding color and texture with thousands of tiny, precise brush strokes. While working on each piece, Fr. Arthur strives to reflect the "stunning, sacred beauty that is mirrored everywhere in Creation." See more by scanning the QR code at right:

**Kathy Johnson's** paintings have rich color and layers of depth that are uncommon in watercolors: a "dream-like quality that make commonplace items and situations feel special." Kathy grew up in the Bay area and worked as a textile designer in Hawaii. After more than three decades in Puget Sound, she moved to the historic town of Jacksonville, Oregon. These varied landscapes can often be seen in Kathy's paintings. See more of Kathy's designs by scanning QR code at right:
