## Meet the maker . . .

Hi! I'm Jessica. The Chrysalis Imagery cards were born from my personal walk through grief after losing my long-time mate in 2021 & the surprising discovery that I could draw.

These are the cards that your customers will be so glad to have on hand when life comes knocking. The messages (featuring all original artwork and hand lettering) are authentic, compassionate & candid and strike a different chord than what we typically see in the greeting card world. Real messages for people going through real things. Designed by a person who really gets it with the intent to encourage, inspire and uplift.

## It's more than a name

A chrysalis is a space of incubation & possibility where alchemy & magic happen. And that's not always a neat & tidy process. When a caterpillar enters the chrysalis, it surrenders to a process of total transformation. Every part of its body except the nervous system, dissolves & reforms into something entirely different. It's fascinating that the nervous system stays intact as it suggests that a butterfly retains its memory of being a caterpillar. ***It's a powerful metaphor for the messy & beautiful way that life stretches us into new expressions of possibility while holding the foundation of where we come from at our core. And that message is at the heart of everything offered at The Chrysalis Imagery.***
