## Who is Allport Editions?

Allport Editions began in Ardys Allport's garage in 1982. An art gallery owner, Ardys successfully showcased new and upcoming artists, yet **she longed to find a way to make art accessible to everyone.** She began publishing her gallery's works as affordable notecards and prints, and just like that Allport Editions was born!

Her legacy continues, 43 years on: **we're a woman-owned, AAPI company dedicated to artists who hand-render their work for cool cards, terrific towels, and popular puzzles!**

We're a small team of 12 humans (and 2

doggos!) who love a perfect pun, good book, fun game, or museum visit! We offer superb customer service, low minimums, and a **100% return guarantee on our Boxed Holiday cards for a risk-free investment!**

We strive to do our part by sourcing materials and manufacturing our products in the USA, utilizing sustainable and 100% PCW papers, and processing chemical-free with non-toxic, water-based inks & glues.

**Whether your first order was in 1982 or 2025 – we THANK YOU for your support in making art accessible to all!**

# NEW SERIES! ARTISTIC ANIMALS McKenna Kornowski

**McKenna (Ihde) Kornowski** grew up in rural Wisconsin developing her creative side both outside of school and at university. Her mixed-media work contains found materials and thrifted clothing like lace and kimonos: "I enjoy giving used garments new life while also adding texture to each painting." McKenna lived in the PNW for many years showcasing her paintings at outdoor markets (where we met her)! She recently got married and moved - now painting from her family's hobby farm in Wisconsin.

**Two Can Art** is a collaboration between Patti Gay and her son Noah, who is autistic. Noah creates painted textures that become the palette from which Patti creates beautiful, layered images. In addition to his fingers, Noah uses sponges, brushes, rollers, and even bubbles to create textures using acrylics, watercolor, gouache, and more! After the textures are created, Patti manipulates them into animal portraits using Photoshop: "I have always thought Noah's paintings were beautiful. It seemed only natural that we would combine our creativity."

Scott is also an exhibiting fine artist with works in public and private collections across the United States. See more of Scott's designs for Holiday and Everyday by scanning the QR code at right:

**Father Arthur Poulin**, a monk of the Incarnation Monastery in Berkeley, CA, paints in acrylic on extremely large canvases. His landscapes, which sometimes take years to complete, echo the Impressionists but project his unmistakably unique style. As art critic Sister Wendy Beckett has described it: "intense and strong, with a pure clear inner radiance." Each of Fr. Arthur's paintings begin with the application of up to 25 layers of black primer before adding color and texture with thousands of tiny, precise brush strokes. While working on each piece, Fr. Arthur strives to reflect the "stunning, sacred beauty that is mirrored everywhere in Creation." See more by scanning the QR code at right:

**Kathy Johnson's** paintings have rich color and layers of depth that are uncommon in watercolors: a "dream-like quality that make commonplace items and situations feel special." Kathy grew up in the Bay area and worked as a textile designer in Hawaii. After more than three decades in Puget Sound, she moved to the historic town of Jacksonville, Oregon. These varied landscapes can often be seen in Kathy's paintings. See more of Kathy's designs by scanning QR code at right:
