HELLO!

Morgan Swank Studio is an art and design studio based in Richmond, Virginia! I create cheeky but wholesome greeting cards and gifts for people who don't take themselves too seriously.

As a little girl, my dad instilled in me a love for drawing. He would trace Minnie Mouse for me to color in, and I thought it was absolutely magical! After graduating with a fine arts degree, my goal has been to find ways to share the magic of illustration with others.

All of the designs you see here are illustrated by me using markers or my iPad—and sometimes a combination of both!

As a product-based business, I prioritize creating relationships with small, US based businesses, so every order creates a chain reaction of small business love!

I hope the products you see in this catalog bring you joy and add a touch of color to your day!

THIS IS A LOVE THAT LASTS

When asked about the great fiction and non-fiction love stories of all time, respondents to this editor's call were quick to offer up characters from works of fiction: Romeo & Juliet, Mr. Darcy & Elizabeth, and (unfortunately, in this writer's opinion) Edward & Bella.

Several more niche pairings were submitted, such as Pygmalion & Galatea and Florentino Ariza & Fermina Daza. However, the one

love story that was unanimously agreed upon belongs to the honorees of this esteemed edition.

When asked to expound, readers declared this love story to be "5 stars!" and "Better than any fictional tale!"

While the height of fictional love might be debatable, our wedding couple has a real-life love story that is unanimously agreed upon as ONE FOR THE AGES!
